Home Tips

Ceiling fans can save you money on your energy bills and can make your home more comfortable. If you are looking to install a new ceiling fan, be sure to purchase the right size for the room. In general, a room up to 144 square feet will need a 42-inch fan, a 225 square foot room will need a 44-inch fan, and a 52-inch fan will be needed for up to a 400 square foot room. The fan should be installed as closely to the center of the room as possible, and the blade tips should be at least 24 inches from walls or sloping ceilings.

Our Latest News... **Bryan's Power-Vac and Royalty Steamers** have joined their businesses together to create **Royalty Services Group, Inc.** Same owners just different name.

Many thanks to all who attended our ribbon cutting and especially to the Davis Chamber of Commerce for their support and making our ribbon cutting a huge success. Thank you Davis Chamber of Commerce!

Are We There Yet?

If you are planning a road trip this summer, you are probably searching for ideas to help pass the time for your kids. Take these activities and ideas along with those swimsuits and shorts.

Travel Games

Most board games come in travel sizes. You might check the thrift stores in your area. You can find everything from Monopoly Junior to Memory games and even an electronic Wheel of Fortune.

Find It Games

Before you go, write the letters of the alphabet on index cards. Dur-

ing your trip, deal them out to everyone. Search for words starting with those letters on billboards or simply things out the window starting with those letters. The first one to go through all his cards is the winner.

License Plates Games

Start by together naming all the states in the U.S. This can be harder than it seems! Keep this list handy and every time a license plate from that state is spotted, mark it off. Try to complete your list before your trip is over. Finding Alaska and Hawaii will be extra special.

Backyard Safety Tips

The sounds of summer always include children playing outdoors. To ensure that your children will be safe as they enjoy their summer vacation, use this checklist to inspect your backyard swing set and play equipment.

- Are the bolts tight? Be sure to tighten all bolts before your

children use the equipment.

- Do the ends of the bolts have safety caps on them? Children can be seriously injured from a puncture by an uncapped bolt. Most hardware stores sell replacements caps.

- Are handrails rusted or loose? Tighten all handrails and ensure

Category Games

Pick a category. For example, you might choose cities, presidents, flowers, sports, or movie stars. Each player has ten seconds to name something that fits into that category. Continue playing until only one player is left. That person picks the category for the next round.

Never Ending Story

The first person begins this game by saying, "Once upon a time. . ." and then adding a sentence. The next person continues the story by adding a sentence or two. This can continue as long as you like.

that there are no loose or sharp edges. Any other metal parts should be checked for rust and rough spots. They should be filed down and re-coated before children use the equipment.

- Are there any rough spots on the wood? Most manufacturers recommend that the wood on wooden play sets be stained every year to extend the life of the unit and to prevent splinters from forming.
